Advanced Professional Skin Care, Medical Edition

Synopsis

Advanced Professional Skin Care, Medical Edition is the most informative, well-written, and current guide for high-level skin care students and professionals on the market today. The skin care industry is booming with more practitioners, more customers to service, more information, better instruments, and better products! The growth is incredible, which means that the educational materials need to be better than ever. The material in this book provides professionals with current information preparing them for the future of the skin care industry. The experienced esthetician is provided with current skin care science as well as advanced science to prepare for any and all industry developments. The reader is educated in chemistry, physiology, and pathology of the skin to prepare them for more in-depth treatments and methods. Another feature is a new model for skin typing called EA Isotypes that is based on hormonal markers and replaces the antiquated "dry, normal, oily" system. There is also focus on a discussion of the methods and products designed to stimulate cellular skin repair without damage. The book includes a section on cosmetic chemistry that gives the reader the tools they need to evaluate any products based on basic performance parameters, and there is a special guest chapter by Scotland's premier practitioner of herbal medicine addressing the use of botanicals. Many illustrations, sidebars, tables, and graphs are placed throughout the book helping to enhance the text and lead to a better understanding of the content. Other features include website and periodical references as well as a Latin pre-fix section. This book is the must-have reference for the serious skin care professional or graduating student ready to enter the rewarding world of professional skin care!

Customer Reviews

This book is a must have for any advanced skin care practitioner. It is a great compliment to Dr Pugliese's "Physiology of the Skin". Great info of the structure & function of the skin as well as treatments and product formulations. Thanks to Dr Pugliese and all the staff at Circadia for keeping us well educated in our field!

I was sceptic buying an used objekt over internet, and pay before I recieved the book, but was plesently surprised!!The book was in the perfect condidtion as described, and was delivered to me within the timeestimate:) Overall very pleased, I got a book in perfect (as new) condition, and shipping for less money than I would have to pay for an new book at my school:)

Master piece created that gives you complete understanding of skin and skin care. For skin care formulation development, this book is essential tool to achieve goal set. After understanding the texture, need of care and suitability for the skin, what one can develop may prove great results. This book is a MUST HAVE tool for my formulation development laboratory.
